Geological Magazine

with which is incorporated

The Geologist

founded in 1864 by the late DR HENRY WOODWARD, F.R.S.

Edited by W. B. HARLAND, M.A.
C. P. HUGHES, M.A.
and G. A. CHINNER, PH.D.

assisted by MRS M. J. MASON

Associate editors

SIR KINGSLEY DUNHAM, D.SC., F.R.S.
MR N. L. FALCON, M.A., F.R.S.
PROFESSOR LEONARD HAWKES, D.SC., F.R.S.
SIR PETER KENT, D.SC., F.R.S.
DR S. R. NOCKOLDS, PH.D., F.R.S.
PROFESSOR F. W. SHOTTON, M.B.E., M.A., SC.D., F.R.S.
SIR JAMES STUBBLEFIELD, D.SC., F.R.S.

Volume 115 of Whole Series
January–December 1978

CAMBRIDGE UNIVERSITY PRESS
CAMBRIDGE · LONDON · NEW YORK

PUBLISHED BY
THE SYNDICS OF THE CAMBRIDGE UNIVERSITY PRESS
The Pitt Building, Trumpington Street, Cambridge CB2 1RP
Bentley House, P.O. Box 92, 200 Euston Road, London NW1 2DB
32 East 57th Street, New York, N.Y. 10022

© Cambridge University Press 1978

Pagination and dates of publication of issues in this volume

Number 1: pp. 1–80	January 1978
2: pp. 81–152	March 1978
3: pp. 153–236	May 1978
4: pp. 237–316	July 1978
5: pp. 317–396	September 1978
6: pp. 397–480	December 1978

Printed in Great Britain at the University Press, Cambridge

Contents

ARTICLES

(Figures in bold type denote number of issue)

ABBOTTS, I. L.
High-potassium granites in the Masirah ophiolite of Oman, **6**, 415

BEYTH, M., GRUNHAGEN, H. & ZILBERFARB, A.
An ultramafic rock in the Precambrian of eastern Sinai, **5**, 373

BRASIER, M. D., HEWITT, R. A. & BRASIER, C. J.
On the late Precambrian–early Cambrian Hartshill Formation of Warwickshire, **1**, 21

CARTER, R. W. G.
Ephemeral sedimentary structures formed during aeolian deflation of beaches, **5**, 379

CAVE, R. & PRICE, D.
The Ashgill Series near Welshpool, North Wales, **3**, 183

CHAUFF, K. M.
Recovery of Ordovician conodonts by hydrochloric acid from phosphate nodules reworked into the Sulphur Springs Formation (Devonian) in Missouri, U.S.A., **3**, 205

CHINNER, G. A.
Metamorphic zones and fault displacement in the Scottish Highlands, **1**, 37

COPE, J. C. W., FORTEY, R. A. & OWENS, R. M.
Newly discovered Tremadoc rocks in the Carmarthen district, South Wales, **3**, 195

COWIE, J. W.
I.U.G.S./I.G.C.P. Project 29 Precambrian–Cambrian Boundary Working Group in Cambridge, 1978, **2**, 151

COWIE, J. W.
Symposium on the Precambrian–Cambrian Boundary, **2**, 81

DAVIES, J. H.
An outcrop of pre-Silurian rocks near Bishop's Castle (S of the Shelve inlier) Salop, England, **6**, 447

DEBRENNE, F. & DEBRENNE, M.
Archaeocyathid fauna of the lowest fossiliferous levels of Tiout (Lower Cambrian, southern Morocco), **2**, 101

DUNCAN, A. M.
The trachybasaltic volcanics of the Adrano area, Mount Etna, Sicily, **4**, 273

DUNCAN, R. A., HARGRAVES, R. B. & BREY, G. P.
Age, palaeomagnetism and chemistry of melilite basalts in the Southern Cape, South Africa, **5**, 317.

ELLIOTT, G. F.
Ecologic significance of post-Palaeozoic green calcareous algae, **6**, 437

FEWTRELL, M. D. & SMITH, D. G.
Stratigraphic significance of calcareous microfossils from the Lower Carboniferous rocks of the Skipton area, Yorkshire, **4**, 255

GIBB, F. G. F. & HENDERSON, C. M. B.
Possible higher pressure relics within titaniferous augites in a basic sill, **1**, 55

HARPER, D. A. T.
The occurrence of the Ordovician brachiopod *Heterorthis alternata* (J. de C. Sowerby) in the topmost Onnian of the type Caradoc area, **4**, 301

HOJJATZADEH, M.
Discoasters of the Blue Clay (Middle Miocene) of Malta and Gozo, **1**, 1

KATZ, M. B.
Sri Lanka in Gondwanaland and the evolution of the Indian Ocean, **4**, 237

KAŹMIERCZAK, J. & GOLDRING, R.
Subtidal flat-pebble conglomerate from the Upper Devonian of Poland: a multiprovenant high-energy product, **5**, 359

KIRBY, G. A.
Layered gabbros in the eastern Lizard, Cornwall, and their significance, **3**, 199

KIRSCHVINK, J. L.
The Precambrian–Cambrian boundary problem: magnetostratigraphy of the Amadeus Basin, Central Australia, **2**, 139

LAMBERT, R. St. J. & McKERROW, W. S.
Comparison of the San Andreas Fault System with the Highland Boundary Fault System of Scotland, **5**, 367

LANE, P. D. & THOMAS, A. T.
Silurian trilobites from NE Queensland and the classification of effaced trilobites, **5**, 351

LOCKWOOD, J. P. & WILLIAMS, I. S.
Lava trees and tree moulds as indicators of lava flow direction, **1**, 69

MACFADYEN, W. A. & VITA-FINZI, C.
Mesopotamia: the Tigris–Euphrates delta and its Holocene Hammar fauna, **4**, 287

McCABE, A. M. & HOARE, P. G.
The late Quaternary history of east-central Ireland, **6**, 397

NAGPAL, M. K., POWAR, K. B. & NAGPAUL, K. K.
Fission track ages of biotites from crystalline rocks of Khamman district, Andhra Pradesh, India, **6**, 443

NELSON, C. A.
Late Precambrian–early Cambrian stratigraphic and faunal succession of eastern California and the Precambrian–Cambrian boundary, **2**, 121

NICHOLSON, R.
Folding and pressure solution in a laminated calcite-quartz vein from the Silurian slates of the Llangollen region of N. Wales, **1**, 47

NILSEN, T. H. & KERR, D. R.
Paleoclimatic and paleogeographic implications of a lower Tertiary laterite (latosol) on the Iceland–Faeroe Ridge, North Atlantic region, **3**, 153

POULSEN, V.
The Precambrian–Cambrian boundary in parts of Scandinavia and Greenland, **2**, 131

SAVITSKY, V. E.
The Precambrian–Cambrian boundary problem in Siberia and some general problems of stratigraphy (Preliminary Report), **2**, 127

SCHMITT, M.
Stromatolites from the Tiout section, Precambrian–Cambrian boundary beds, Anti-Atlas, Morocco, **2**, 95

SDZUY, K.
The Precambrian–Cambrian boundary beds in Morocco (Preliminary Report), **2**, 83

SEAGER, A. F., FITCH, F. J. & MILLER, J. A.
Dating of adularia and the relationship of hydrothermal events in the Lizard complex, Cornwall, **3**, 211

SINHA ROY, S. & FURNES, H.
Geochemistry and geotectonic implication of basic volcanic rocks in the Lower Gondwana sequence (Upper Palaeozoic) of the Sikkim Himalayas, **6**, 427

STEINITZ, G., BARTOV, Y. & HUNZIKER, J. C.
K-Ar age determinations of some Miocene–Pliocene basalts in Israel: their significance to the tectonics of the Rift Valley, **5**, 329

TREMLETT, C. R.
A note on stress relationships determined from Mohr diagrams, **5**, 341

WALTER, M. R.
Late Precambrian to early Cambrian stratigraphy of the SW Georgina Basin, Australia, **2**, 137

WEAVER, J. D. & JEFFCOAT, R. E.
Carbonate ball and pillow structures, **4**, 245

WHITTAKER, A.
The lithostratigraphical correlation of the uppermost Rhaetic and lowermost Liassic strata of W. Somerset and Glamorgan areas, **1**, 63

WINCHESTER, J. A.
The zonal pattern of metamorphism in the Scottish Highlands and the displacement along the Great Glen Fault: discussion of paper by G. A. Chinner, **6**, 453

CORRESPONDENCE

CHALLINOR, J. Curious markings on bedding surfaces, **5**, 383

CHINNER, G. A. and WINCHESTER, J. A. Metamorphic zones and fault displacement in the Scottish Highlands, **6**, 461

JAANUSSON, V. Ordovician Meiklejohn carbonate mound, Nevada, **6**, 467

MAX, M. D. & BARKER, P. L. The westward continuation of the Leannan Fault of Donegal and its bearing on the Great Glen Fault system, **3**, 215

SABINE, P. A. Progress on the nomenclature of volcanic rocks, carbonatites, melilite-rocks and lamprophyres, **6**, 463

REVIEWS

Ammoniten, **4**, 305
The area around Stoke-on-Trent, **1**, 77
Aspects of Ecology and Zoogeography of Recent and Fossil Ostracoda, **5**, 392
Basement structure Eastern Canada and adjacent areas, **5**, 390
Biostratigrafija Devona Severozapadne Srbije (Biostratigraphy of the Devonian in northwest Serbia), **4**, 310

The British Isles through geological time. A northward drift, **6**, 469
Collected Papers of Sir Harold Jeffreys on Geophysics and other Sciences. Volume 4, Dissipation of energy and thermal history; Volume 5, Astronomy and Geophysics; Volume 6, Mathematics, Probability and miscellaneous other sciences, **3**, 221
A color illustrated guide to carbonate rock constituents, textures, cements and porosities, **6**, 473
Computers and geosciences, Volume 2, number 1, **3**, 224; Volume 2, number 3, **3**, 227
Cumbria, **1**, 77
Dental and skeletal morphology of the earliest elephants, **6**, 474
Devon and Cornwall, **1**, 78
Engineering geology, **1**, 77
The evolution of North America, **5**, 391
The evolution of the crystalline rocks, **5**, 385
Evolution of the Silurian and Devonian graptoloids, **5**, 386
Fossil plants of the Carboniferous rocks of Great Britain, **3**, 225
Geological Guide to the Dingle Peninsula, **3**, 225
Geological oceanography, **5**, 392
Geological studies in St. Margaret's Bay, Nova Scotia, **3**, 223
Geology explained: Dorset, **3**, 226
The Geology of Mars, **4**, 307
Geology of the Beaufort–Mackenzie Basin, **4**, 309
Geology of the Middle Atlantic Islands, **3**, 226
Geology of the Moon, **5**, 390
Geology of the Scotian Shelf, **4**, 306
Geomorphology in environmental management, **3**, 223
Hamilton Bank, Labrador margin: origin and evolution of a glaciated shelf, **4**, 306
Introduction à la géologie quantitative, **6**, 469
Jurassic stratigraphy and history of north-central British Columbia, **3**, 228
Manual of mineralogy, **6**, 472
Metamorphism and metamorphic belts, **6**, 473
Middle Devonian cystiphyllid corals from the Hume Formation, northwestern Canada, **3**, 228
The mineralogy of the Diamond, **6**, 474
Normandie, **1**, 79
Nuclear Track Detection, **6**, 470
The Observer's book of fossils, **5**, 391
Oil in the seventies: Essays on energy policy, **6**, 470
Ontogeny and phylogeny, **6**, 473
Optical mineralogy, **3**, 228
Paleozoic origin of the cycads, **3**, 229
Palökologie, Konstruktionen, Sedimentologie, Diagenese, und Vergesellschaftung von Fossilien, **3**, 230
Petroleum geology and geology of the North Sea and northeast Atlantic continental margin, **3**, 221
Petrologic phase equilibria, **4**, 305
Plate tectonics and crustal evolution, **5**, 385
Precambrian of the northern hemisphere and general features of early geological evolution, **5**, 387
Principles of engineering geology, **1**, 75
Principles of physical geology, **6**, 474

The Quaternary history of the Irish Sea, **4**, 309
The Roberts Mountains, a regional stratigraphic study with emphasis on rugose coral distribution, **4**, 308
The rugose coral genera. Supplement II, **1**, 79
Sedimentology and geochemistry of marine sediments near Comox, British Columbia, **3**, 224
The Silurian–Devonian Boundary, **5**, 387
Snowdonia National Park scenery: a geological interpretation, **4**, 308
Soil and vegetation systems, **6**, 472
Stratigraphic atlas of North and Central America, **4**, 310
Stratigraphy and Tertiary development of the continental margin east of Florida, **5**, 388
Stress and strain. Basic concepts of continuum mechanics for geologists, **1**, 76
Stress in the Earth, **5**, 389
Styles of folding, **5**, 394
Trace elements in soils, **5**, 393
Verformungsanalyse im Rhenoherzvnikum, **3**, 229
Volcanoes and impact craters on the Moon and Mars, **4**, 307
Wenlockian and Ludlovian age brachiopods from the Roberts Mountains Formation of Central Nevada, **3**, 222
Wirtschafts-geologie, **5**, 393

Publications Received

Lists appear beginning pages **1**, 80; **3**, 231; **4**, 311; **5**, 395; **6**, 475

Notices

Notices from the International Commission on Zoological Nomenclature occur on pages, **3**, 219, 220; **5**, 384
